Intermediate Orchestra Recording Project
Apache
Video Guidelines

Hi everyone!

We have a recording challenge for you. We are going to make a video montage performance of Apache, to include playing. Over the next few weeks we would really like you to record yourselves playing along to Apache

Once you have recorded your video, we would like you to send them to us so that we can edit it together to make one Intermediate Orchestra performance video to use on social media etc. Please do get involved and have some fun.

Please take a look at the Apache Tech Video that Nathan Gregory has made for us .

You will find it on our website, in resources, under Intermediate Orchestra Resources.

Then you will need to watch the lesson tutorials, if you haven't done so already and look at the enclosed structure of the piece.

For recording you will need the following:

A laptop or something to play the backing from, the music memorised, a recording device (phone) and some headphones.

Download the backing click track, or be able to play it from a device accessing the webpage.

○ At the end of your video, record your parent/guardian saying the following:

○ 'My name is xxxxx I am the parent/guardian of xxxxxx I give permission for xxxxx to record and upload a video for Nottingham Music Service. I understand that, once uploaded, the video will be used to create a larger video which will be available for the public to view and could be also used to promote the work of the service on their online social media platforms. I understand that I can withdraw this permission at anytime by emailing the music service.'

○ Make sure you warm up your instrument for a good ten minutes and tune before you start recording.

○ You will need to play the backing track through your headphones so that the recording doesn't have the backing track playing as well

○ At the start of your recording you will hear a 4 beat rhythm, 4 times. On the third time please say the words 'PLAY A-PA-CHE', on your recording (you will Hear Graham do this on the track.. This will allow Nathan to sync your video with everyone else's.

○ When you are happy with your recording, (make sure you have your parental/guardian permission video attached), please send it to rhyorecordings@nottinghammusichub.org.uk

○ If your video is too big to send via email, then please use WeTransfer to upload and send, but please use the same email address above to send it to.

○ DEADLINE for entries is 5pm Friday 12th June 2020.

○ Good luck and have some fun playing and videoing your self playing 'Apache'. We can't wait to see your videos and the final video montage of all your efforts!
